Name: **Mr. Imran Ahmed Khan Niazi** Age: **70** Gender: **Male**

Father's Name: **Ikram Ullah Khan**

Date of Examination: **09th of May, 2023**

Physical Examination

- Pulse: **70 beats / Min, Regular**
- Blood Pressure (Sitting): **130/80 mmHg**
- Respiratory Rate: **14 / Min**
- Temperature: **Normal**
- Chest: **B/L Clear** Pallor: **Absent**
- Heart: **S₁ + S₂ + 0** Cyanosis: **Absent**
- Abdomen: **Normal** Jaundice: **Absent**
- Nervous System: **Intact** Oedema: **Absent**
- Higher Mental Function: **Intact**
- Clinical Status: **Stable**
- Fitness for detention under NAB custody: **Fit**

Remarks: Following blood tests are advised:

- Blood CP Normal
- LFTs / RFTs Normal
- PT / APTT Normal

The gentleman was examined and appears under stress with anxiety symptoms. There was extensive anger/anxiety about the events happening in the last few weeks. He had little insight about the seriousness and reality of the current situation. The mental stability is questionable. There were some inappropriate gestures.
